

# RIEBE & ASSOCIATES, INC.

March 4, 2014

To Whom It May Concern,

I am the Principal at Riebe and Associates, Inc. Our company specialized in Single and Multi-Family housing. We have been practicing since 1989.

I have worked continuously with Ross Baharmast from RB Engineers since 1985 while he was employed by J. Clark Johnson, Engineers. Over the years, we have worked together on numerous multi-family projects, both retail and rental, ranging in sizes of up to 400 units in a single project, as well as a number of single family home plan prototypes executed for builders and developers.

I strongly believe tha RB Engineers is innovative and conscientious in their engineering designs and solutions.

I would recommend RB Engineers to anyone seeking Residential and Multifamily Engineering Services.

Best Regards,

E. Dennis Riebe, Architect  
President of Riebe and Associates, Inc.
